

Focused on you.

FOCUS

FOCUS

Over 20 years of Experience

For over 20 years, Apollo Design Technology, Inc. has been one of the world's leading innovators, manufacturers and distributors of gobos, color filters, lights and related equipment and accessories for the lighting industry.

We are continually engineering new products to help you create and execute the designs of your dreams for theaters, bands, advertising, touring companies, television, motion pictures, museums, retail and architecture.

Apollo Design is recognized for creating innovative and award-winning products of superior quality and value. Focused on you, our goal is to ensure unparalleled support from the initial conversation to after sales service.

Our lighting experts and engineers will consult with you on ways to use our standard products or engineer custom solutions. Allow your imagination to run free. Let the Apollo Design team help you create the lighting design you only imagined. There is virtually no limit to what we can do together.

Joel Nichols
President,

AVID™

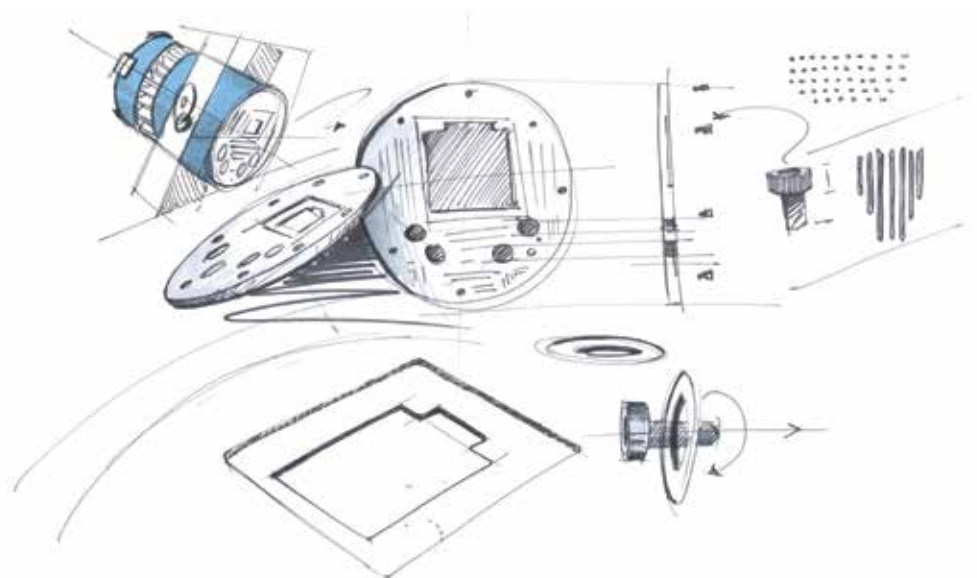

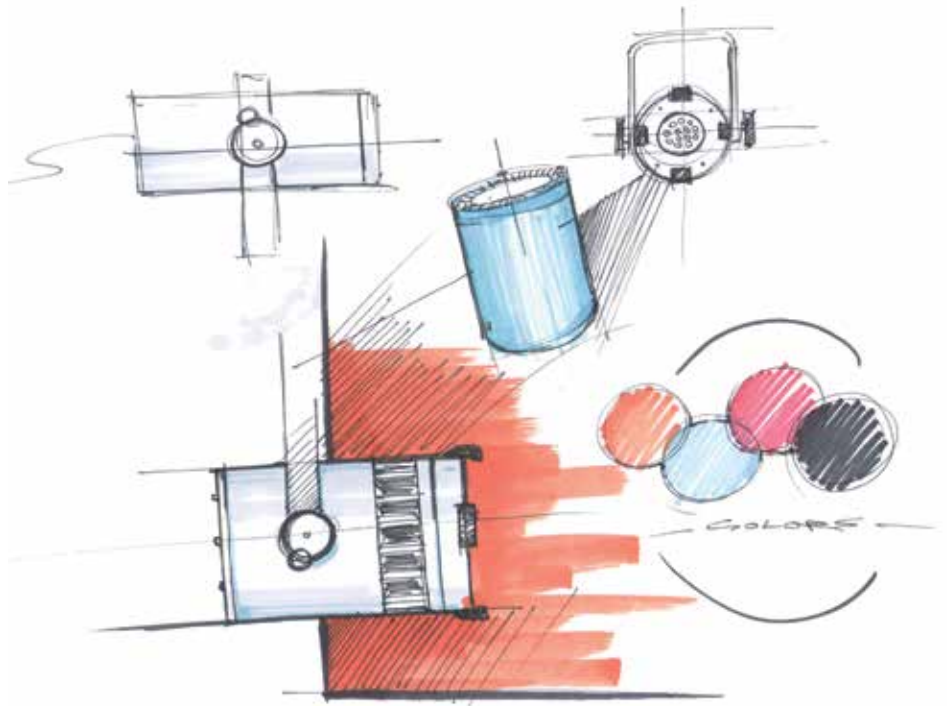

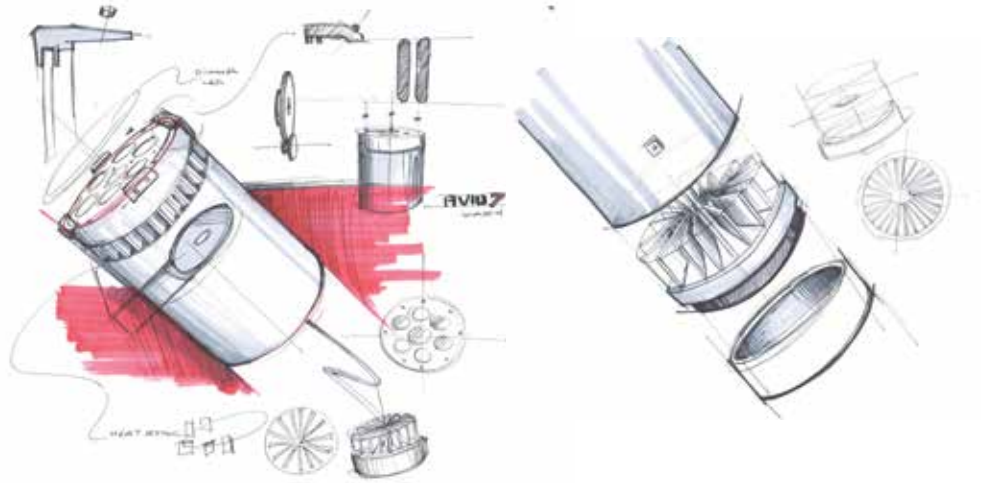

by Apollo Design

Unique Lighting Solutions

Introducing the next generation in LED fixtures. The AVID™ LED lights from Apollo Design are built to bring your lighting dreams to reality. Allow your imagination to run free. Our LED experts and engineers will consult with you on ways to use our standard AVID™ products or engineer custom solutions.

Concept

Utilizing our industrial design capabilities, we will create a design based on your unique specifications. Through a series of sketches and computer renderings we will work together to fine-tune the design of the fixture.

Prototype

Once your design is finalized, we will create 3D renderings using our modeling software. Our expert engineers will incorporate the necessary electronics, optics and functions needed to meet your specifications.

Production

Prior to production, we use real life 3D prints to check fit, form and function of the fixture to ensure we have created the product you imagined. Once final approval is received from both you and Apollo's QC team our 3D CAD package allows direct translation into the production process through an advanced CAM interface.

Apollo Design's production facility offers a comprehensive array of manual equipment along with a full array of CNC, including CNC Lathes and 4-Axis CNC Mill. Using this sophisticated equipment, Apollo Design's production teams create a prototype before advancing to full manufacturing.

Let us be your lighting design partner, there is virtually no limit to what we can do together.

Unique Lighting Solutions

AVID™ 5

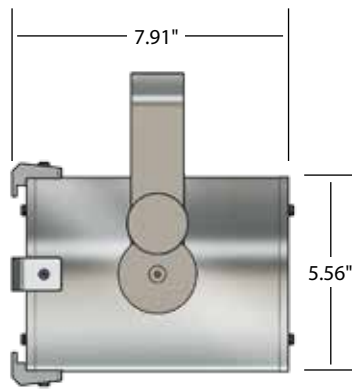

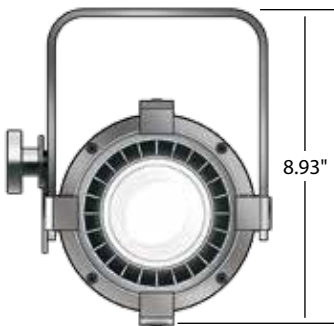

AVID™ 5 fixture with a custom orange anodized housing.

Features:

- 12° Standard or 30° Optional Beam
- Color Rendering Index: 93-12° Beam; 95-30° Beam
- High Output Sylvania ULTRA HD LED
- Flicker Free
- Machined Aircraft-Grade Aluminum Housing in Black Anodized
- Custom Housing Design Available
- Custom Housing Colors – anodized to military specifications and include; silver anodized, red anodized, orange anodized, white powder coat and any other color you can imagine
- Designed, Engineered and Built in the U.S.A.

The AVID™ 5 has a sleek yet solid look and is built in the U.S.A. from machined aircraft-grade aluminum. Beautiful color rendering and the build quality are just a few of the features that set this striking fixture apart.

Weight: 7.8 lbs.

AVID™ 5 fixture with a custom green anodized housing.

Let us be your lighting design partner, there is virtually no limit to what we can do together.

Unique Lighting Solutions

AVID™ 7

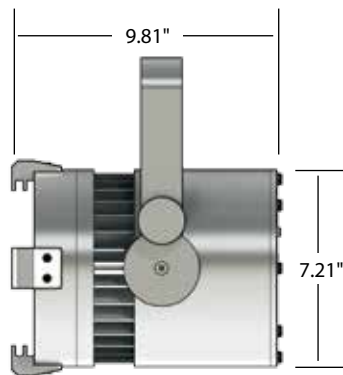

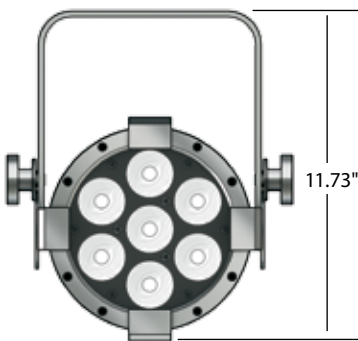

Features:

- Smooth, Selectable Dimming Curves, Accurate to 0% Output
- Color Calibration Software for Consistent Color Matching
- 7 High Output RGBW Four Color Osram OStar® Stage LEDs
- Flicker Free
- Machined Aircraft-Grade Aluminum Housing in Black Anodized
- Custom Housing Design Available
- Custom Housing Colors – anodized to military specifications and include; silver anodized, red anodized, orange anodized, white powder coat and any other color you can imagine
- Designed, Engineered and Built in the U.S.A.

The AVID™ 7 has a sleek yet solid look and is built in the U.S.A. from machined aircraft-grade aluminum. Smooth dimming, a unique cross fade attribute, beautiful color rendering and the build quality are just a few of the features that set this striking fixture apart.

Weight: 14.7 lbs.

AVID™ 7 fixture with a custom red anodized housing.

Let us be your lighting design partner, there is virtually no limit to what we can do together.

Smart Color® PRO Scrollers

The Smart Color PRO® scrollers smooth, quiet operation elevates them to the best scroller for any application.

Robust, functional design comes with adjustable mounting tabs, pre-installed heat-deflecting Gel Shield, and local or remote fan speed control to fit the needs of any production.

- Push button menu with LED display.
- Easy, front load gel string.
- Backward compatible with all other Smart Color® products.
- Standard 18 gel frames with 24 custom frame options.
- Variable speed, single fan cooling system with local or remote speed control.
- Spring loaded, self tensioning gel strings.
- Ideal with ellipsoidals, Fresnels and PARs.

MXR 2 Color Mixer

The MXR 2's magic is in its unique color strings. Putting a twist on two-string color mixing, the MXR 2's innovative color selection and frame sequence maximize the useful colors. Multiple designers can now share a stage, as nightmare color changeovers between shows are eliminated.

- Pre-installed UV/IR deflecting Gel Shield.
- Adjustable mounting tabs.
- Variable speed, single fan cooling system with local or remote speed control.
- Direct drive 4-motor system.
- Simple, multi-feature programming with LED display.
- Hundreds of color variations available due to the innovative two-string color mixing capabilities.
- Patented.

EZ Iris DMX

With the EZ Iris DMX, designers can conveniently adjust the beam light from many conventional ellipsoidals.

- Smooth actuation provides seamless aperture changes.
- Gear driven for positive operation.
- Black, powder-coat 22 gauge steel for rigidity and durability.
- Addressable from DMX 1-512.
- For use in lighting fixtures up to 750 watts.

Did you know? Design-A-Gobo

You could have a gobo named for you, added to the world's largest collection of gobos and receive royalties. Through the Apollo Design-A-Gobo program you can design and submit an original pattern. If it is selected to become part of our gobo library you will receive a 5% royalty on net sales for 5 years. Visit www.DesignGobos.ApolloDesign.net for complete details.

Smart Move® Rotators

In addition to simple bi-directional design rotation, the Smart Move® offers an array of individual gobo movements ideal for a broad range of applications without the need for a control board. The built-in, pre-programmed micro-processor provides the “smarts”, while the rotary switches and speed control dial allow the user to easily set the desired effect and speed.

- Reversible retaining ring holds metal or glass gobos.
- Holds one or two “B” round gobos.
- Belt driven for quiet operation.
- Fits ETC Source Four, Altman Shakespeare, Strand SL, Selecon Pacific fixtures and Times Square Q435.
- Powered by a rugged 24V adaptor.
- Infinitely variable speed range from 0-21 rpm, CW/CCW.
- 1/4” audio jack for reliable power connection.
- Black, powder-coat 18 gauge steel.

Smart Move® DMX

- The Smart Move® DMX provides all the features of the Smart Move® plus DMX control and indexing.
- Uses standard 4-pin data cable (sold separately).
- Powered by a 24V DC DMX power supply (sold separately).

Smart Move®
Smart Move® DMX
Smart Move® JR

Smart Move® JR DMX
Simple Single™

Smart Move® JR

The Smart Move® Jr. provides all the features of the Smart Move® while fitting conveniently into an ETC Source Four Jr. fixture.

- Holds 1 “S4J” size metal or glass pattern.
- Powered by a 24V, AC adaptor.

Smart Move® JR DMX

The Smart Move® Jr. DMX provides all the features of the Smart Move® Jr. plus DMX control and indexing, while fitting conveniently into an ETC Source Four Jr.

- Holds 1 “S4J” size metal or glass pattern.
- Powered by a 24V DC DMX power supply (sold separately).

Simple Single™

- Holds 1 “B” size metal or glass pattern.
- Powered by a 24V, 600mA AC adaptor.
- 1/4” audio jack for reliable power connection.
- Variable CW/CCW rotation range from 0-21 rpm.

Clear Glass Pattern Separator

- Protects metal gobos in the rotator.

Smart Move® Vertical

The Smart Move® Vertical features motion, time, and speed presets that create vertical movement of patterns or text. Two individual images on one gobo allow one image at a time to be placed in the focal path of the fixture.

Compared to the spinning movement of a standard gobo rotator, the Vertical offers a more subtle look. Additional effects can be created by placing another gobo in the fixture's gobo slot.

Ideal for subtle movement of corporate logos and other retail, architectural, and theatrical applications.

- Engineered for quiet, reliable operation and easy gobo changeout.
- Holds one metal, one B/W, or one 1-color glass gobo.
- Variable speed, 1/4"-1 1/2" variable dwell times provide 17 pre-programmed effects.
- Digital readout of presets.
- Rotary switches and speed control dial provide easy setting and speed control.
- Powered by a rugged 24V, 60mA AC adaptor standard with the unit.
- 1/4" audio-style power jack.
- Fits ETC Source Four and Altman Shakespeare.
- Black, powder-coat 18 gauge steel.
- Patent Pending.

Smart Move® Vertical DMX

The Smart Move® Vertical DMX can be used to easily change breakup patterns between scenes from the same fixture, move between lines of text, or for simple blackout.

- The Smart Move® Vertical DMX provides all the features of the Smart Move® Vertical plus DMX control and indexing.
- Fits ETC Source Four and Altman Shakespeare.
- Uses standard 4-pin data cable (sold separately).
- Powered by a 24VDC DMX power supply (sold separately).

Right Arm® 3

AUTOMATED GEAR

The functional design of the Right Arm® 3 makes it simple and easy to add pan and tilt capabilities to a variety of static lighting, video, and projection devices.

Design Features

- Functional bracket design accommodates a variety of devices, including many popular lighting fixtures, without removing existing yokes and shutters.
- A patented weight distribution system allows the attachment of front or rear heavy fixtures and accessories without adding counter weights or fixture modification.
- Compact size minimizes required rigging space.
- Heavy duty pipe clamp included.

Operational Features

- Controlled via DMX512 consoles with multiple choices of 8 or 16 bit restricted pan and tilt ranges for precise movement.
- User defined pan and tilt range.
- High torque stepper motors provide quiet movement.
- Built-in universal power supply for worldwide compatibility.
- One 5-pin output and one 4-pin output provide 24VDC power and DMX control for accessories.
- Requires 2, 3, or 5 DMX channels for control.
- LCD screen.
- Patented.

LEDs

Ellipsoidals
and Fresnels

Cameras

Projectors

Right Arm® Half Coupler Kit

The sleek and functional design of the half coupler allows for quick and easy installation and won't damage truss or pipes.

The kit includes a modified Half Coupler, one adapter plate, one M16 x 40mm flat head bolt, and one M10 allen wrench (per order). Once installed, no other tools are needed to hang the Right Arm®.

Apollo Gel

Apollo filters add color to stage scenery and provide color correction for theater, film, and television. Available in 20" x 24" sheets. Apollo Gel is made of a heat resistant polyester using a double-coated process for color consistency. Over 150 popular colors available on ApolloDesign.net.

APOLLO GEL

PerfGel™

Apollo PerfGel™ is a 20" x 24" color filter sheet with easy-to-tear perforations that offer time and labor savings before and during load-in. No more measuring and cutting. Clean, consistent cuts every time. Apollo PerfGel™ yield diagrams are available at ApolloDesign.net.

Easy-to-tear perforations

PerfGel™

Gel Rolls

Gel Rolls are made of heat resistant polyester using a double-coated process for color consistency. Polyester filters add color to stage scenery and provide color correction for theater, film and television. Available in 2' x 25' rolls or 2' x 12' half rolls.

GEL ROLLS

Did you know? Green Gobo

Since 2007, Apollo gobos have been produced using clean laser technology instead of environmentally hazardous chemical etching.

GEL SHIELD

Gel Shield

Gel Shield is a 7 mil polyester that reflects infrared energy, preventing gels from absorbing IR energy as heat. Gel Shield is ideal for gel and scroller applications on fixtures 1000 watts or less. Use in long-term applications to extend gel life.

Gel Sizes	Pro Scrollers Sizes
6" x 6"	5.25
8" x 8"	7.25
10" x 10"	10
20" x 24"	
24" x 24"	

GEL PACKS

Gel Packs

Gel Packs are convenient retail packs of popular filter colors. A Gel Pack contains twelve, 12" x 12" assorted color filter sheets inside a resealable plastic bag along with a graphic slip sheet with tips and ideas. Custom shapes are available. To view the selected gel colors in each pack visit ApolloDesign.net.

Theme Packs

- Variety Pack
- Diffusion Pack
- Theater Pack
- Concert Pack

GEL TUBES

Gel Tubes

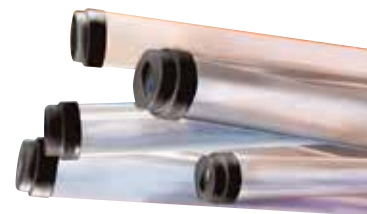

Gel Tubes

Provide creative, low-cost color control of fluorescent lighting. Color gel inserts are pre-assembled into clear polycarbonated tubes with end caps. Simply place the fluorescent light inside the tubes and install.

UV Gel Tubes

Protect fabrics, paintings, and documents with clear 48" UV filtering, polycarbonated tubes. The UV tube absorbs ultraviolet radiation in the wavelength band below 390 nanometers. Available with or without gel.

GELWRAP™

GelWrap™

GelWrap™ ease of installation **saves labor** while safely adding color to fluorescent lights. Scored seams shape the gel into a triangle that allows the filter to be conveniently fed and "locked" around the fluorescent tube without removing the bulb from the fixture. Dimensional storage and shipping costs are also minimized as GelWrap™ is shipped and stored flat. Available in any Apollo Gel Roll color. Patented.

Gel Tube and GelWrap™ Sizes		
(T5)	1/2" x 48"	(12.7mm x 1.219m)
(T8)	1" x 48"	(25.4mm x 1.219m)
(T12)	1 1/2" x 48"	(38.1mm x 1.219m)

Gel Strings

Theater, rock 'n roll, and custom strings using Apollo gel colors are available for the Smart Color® PRO scrollers.

Custom strings using other filter brands and gel strings for other scroller brands are also available. Four string minimum applies.

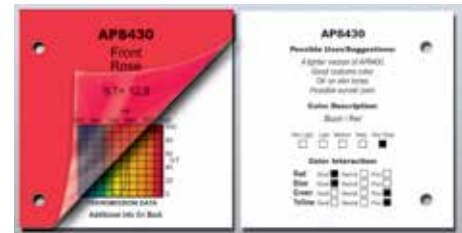

MXR 2 Replacement Strings
Two string set.

GEL STRINGS

Designer Gel Book

Use Designer Gel Books to supplement onsite decision making or learn about the various filters and their applications.

DESIGNER GEL BOOK

Apprentice Gel Kit

The Apprentice Gel Kit simplifies the color selection process for beginning students, educators in lighting programs, and theater and architectural consultants.

- (75) 20" x 24" sheets (3 sheets of 25 colors)
- (1) Apollo Gel Pen
- (1) Resource CD
- (1) Apollo Gel Swatchbook
- (1) Instructional DVD

APPRENTICE GEL KIT

Gel Cabinet

An attractive storage unit for gel sheets hand crafted of baltic birch. Measuring 24 1/2" wide x 25 1/2" deep and standing 20 1/2" tall. This cabinet has 12 easy-access sliding shelves and each will protect up to 50 sheets of gel. Optional base allows portability. Assembly required.

GEL CABINET

Dichroics

Dichroic filters project dramatic rich saturated colors. Dichroics are the best solution for achieving high transmission and consistent color definition. With minimum heat absorption, dichroic filters are designed not to crack or distort from exposure to high power light sources.

Dichroics are ideal for permanent installations in both interior and exterior architectural applications, including accent lighting and color temperature alterations.

DICHROICS

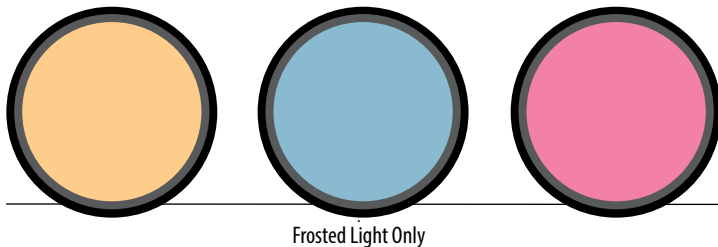

- Over 40 Stock Colors
- UV Transmission
- Hot Mirror
- Color Matching Capabilities
- Custom Chamber Runs
- Custom Corrections
- Custom Neutral Density Graduations
- In-House CNC Cutting Capabilities
- In-House Machine Shop Support / Custom Mounting / Sizing / Fixture Requirements

Frosted Dichroics/Glass

Frosted Light Only

A. Frosted Light (Single Sided)

B. Frosted Heavy (Double Sided)

Frosted Dichroics

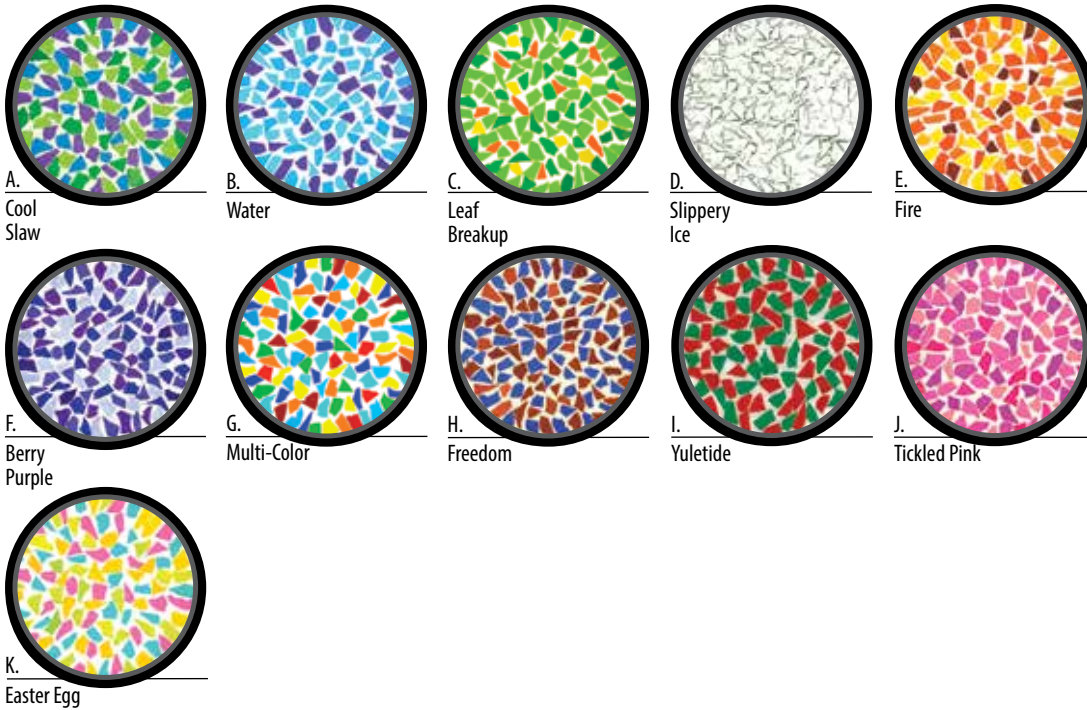

Diffuse or soften the edge of projected light. Dichroics are ideal for permanent installations in architectural applications. Frosted dichroics are available in light frost, which is frosted on one side.

Frosted Glass

Available in light and heavy frost. Heavy frost is frosted double sided, light frost is single sided.

FROSTED DICHROICS/GLASS

Crushed Dichroics

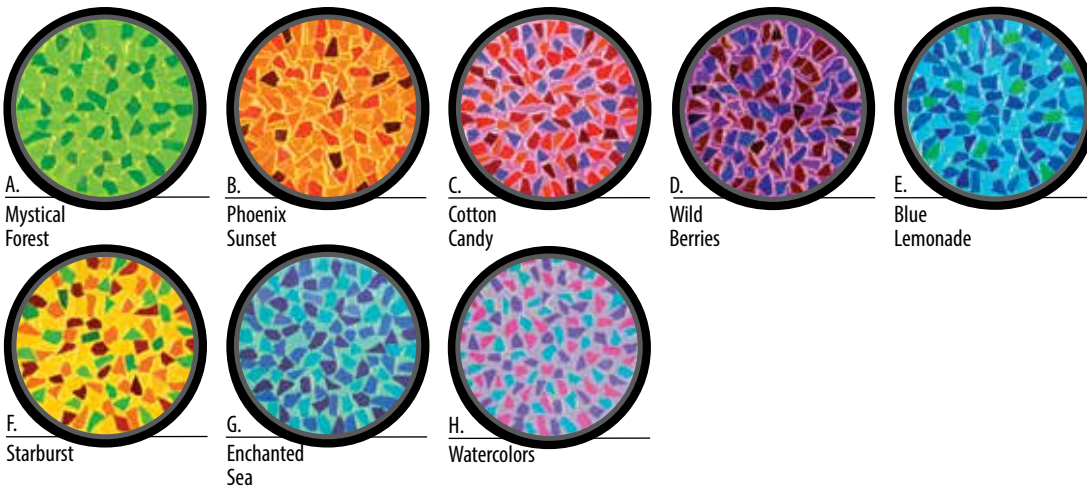

Crushed Dichroics are multi-color patterns made from small chips of dichroic color glass that add back-ground color and breakups to any scene. Crushed dichroics project bits of white light mixed within the colors.

Each pattern design is unique and will vary.

CRUSHED DICHRONICS

Enhanced Crushed Dichroics

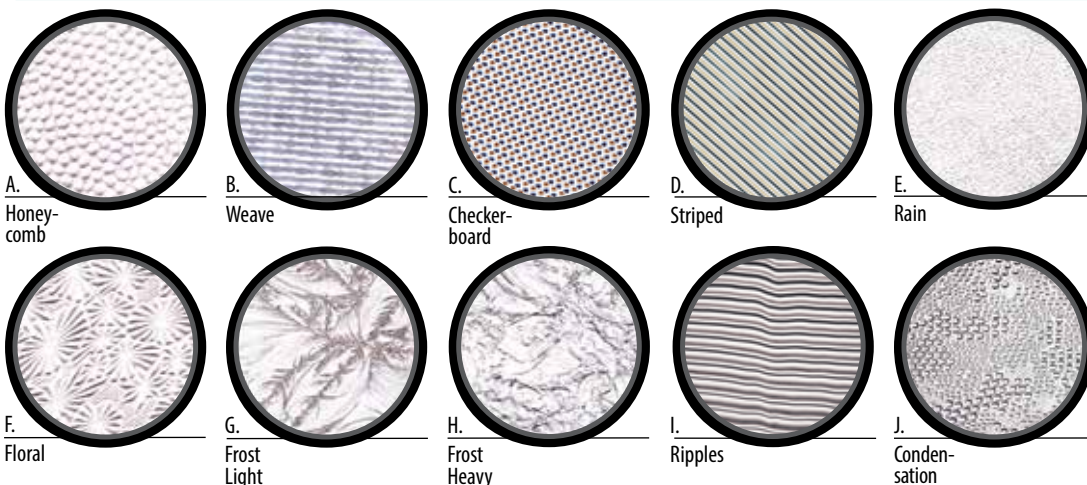

Enhanced Crushed Dichroics project no white light. These are an inexpensive way to use color without purchasing a color gobo. They can be paired up with a standard pattern to achieve a dramatic background effect.

Each pattern design is unique and will vary.

ENHANCED CRUSHED DICHRONICS

Textured Glass

Textured Glass patterns will refract and bend light into detailed patterns of light and shadow images. It is an inexpensive way to add depth and enhance architectural washes. Textured glass patterns are made of tempered glass and available in ten patterns.

TEXTURED GLASS

MultiSpot LEDs

- Switch mode power supply.
- DMX master/slave mode to easily control several units.
- Flicker free TV-camera compliance.
- User adjustable white balance.
- Backlit display with sleep mode.
- Integral yoke/floor stand.
- Diffraction available in various beam spread.
- MultiSpot is a Color Kinetics licensee.

MultiSpot-GII-HT3030

The right choice for applications where a medium flood is needed, great color mixing even at short distance is a must and the overall brightness generated with colored light is to be maximized. It comes with a powerful RGB MulTri LED, and offers RGB mixing and the advanced HSL (Hue Saturation Level) color mixing control. The user-friendly interface with large LCD display makes this unit suitable for a variety of applications. Available in IP-20 and IP-65 versions.

- 3550 Lumens.
- 95W Max Power.

MultiSpot-GII-HS5034

A powerful RGBAW LED with enhanced color-range and advanced HSL (Hue Saturation Level) color mixing control. The user-friendly interface with large LCD display, rugged housing, and multiple lens options makes this unit suitable for many demanding applications. Available in IP-20 and IP-65 versions.

- 2600 Lumens.
- 75W Max Power.

MultiSpot HT3012

Introducing advanced thermal management and high-efficiency step-down switch mode LED current regulators. It also offers higher light output and fanless, silent cooling. Working with 3-in-1 MulTriCell LEDs, color mixing happens right at the light source and generates a very consistent beam of light. This is a fixture for the lighting professional.

- 4 Channels DMX.
- 85-250V auto sensing.
- Integral power supply.
- 40W total power consumption.
- 3-pin XLR in and out.
- Low noise thermostat controlled fan.
- Integral yoke/floor stand.

Pattern Holders

Metal/B&W Glass and Color Glass Holders

SuperHolder™

We offer a variety of pattern holders that allow metal and glass patterns to be conveniently held in the appropriate slots of a light fixture. The **Metal/B&W Glass Holder**, **Color Glass Holder**, the **SuperHolder™**, and the **Reversible Pattern Holder** are made of quality aluminum material.

SuperHolder™ Pattern Holder

Easily convert to hold both metal or glass patterns. Pop out the retaining ring in the SuperHolder™, insert the gobo and replace the ring. Holds "A" or "B" metal, and "B" (79mm) glass.

Reversible Pattern Holder

The gobo slot holder is available for "B" (86mm) metal and (79mm) glass. The iris slot holder is available for either "B" (86mm) metal and (79mm) glass or "A" (100mm) metal and (89mm) glass.

With the most durable handle in the industry, Apollo offers a lifetime replacement guarantee if the handle ever breaks.

Our pattern holders are designed to best fit Apollo gobos and bezels. Apollo offers additional pattern holders for other ETC, Altman, Strand, Selecon, Colortran, Times Square, and Juliat fixtures.

Source 4 JR Metal and Glass Holders

Strand SL Glass Holders

Strand SL Metal Holders

Reversible Holders

Converting Rings

Converting Rings allow existing glass gobos to be used in different fixtures by changing their size.

Converting rings are a low cost method of changing the projection options of an existing pattern.

POWER SUPPLIES

Smart Power™

Smart Power™ 200

Smart Power™ is an auto-sensing power supply for both domestic and international use. User accessible fuse on the back panel with a spare fuse included. Self-healing circuit protection. Integral handle with pipe clamp holes.

Smart Power™ 400

- AC input voltage range auto sensing, 88 to 264volts, 50/60 Hz.
- No switches to adjust for international AC line voltages.
- Output overload protection shuts circuit off if cable short or load fault occurs.
- Automatic output recovery when cable short or load fault is removed.
- User accessible fuse on back panel, spare fuse included.

Smart Power™ 600

Smart Power™ 75W

A lightweight, electronic power supply.

Rack Mount

RACK MOUNT

The Rack Mount allows Smart Power™ 400 and 600 to be mounted in electronic equipment racks.

Wrenches

WRENCHES

Apollo BTS Wrench

An adjustable wrench with a closed-end wrench built into the handle. The closed-end wrench includes the three sizes 3/4", 1/2", and 3/8" that provide easy access to the common bolt sizes found in the industry. Patented by Apollo Design Technology.

A portion of the proceeds from the Apollo BTS Wrench are donated to Behind The Scenes.

Little Focus 5 Wrench

A sleek, handy tool for your focusing needs. Made from durable stainless steel, provides easy access to common bolt sizes found in the industry.

Hoop Stand/ Tour Jacket

HOOP STAND/TOUR JACKET

Hoop Stand

An elegant, simple scissor stand that allows fixtures to be positioned on the floor or table. The Hoop Stand folds into itself for storage.

Tour Jackets

Protects expensive LED and conventional fixtures against bumps and scrapes while transporting and storing. Fixtures can be hung on pipes while still "jacketed".

Cable

CABLE

3-pin and 5-pin DMX cables

Used to run the DMX signal from a lighting console to PSU's, fixtures, dimmers, and other products. The cable has a rugged heat resistant, flexible PVC outer jacket and 3-pin or 5-pin XLR connectors. 5-pin DMX Cable is available with silver Amphenol or black Neutrik® connectors.

3-pin DMX Cable

5-pin DMX Cable
(Black Neutrik®)

5-pin DMX Cable
(Silver Amphenol)

Standard 4-pin Data Cable

Connect various lighting related accessory products like rotators and scrollers. Apollo offers a high quality, durable cable with 4-pin XLR connectors for effective transfer of data and power.

powerCON Power Jumper

A 13 amp cable with a powerCON power-in connector (blue) on one end and a powerCON power-out connector (grey) on the other end used to daisy-chain power.

Apollo DMX Adapters

DMX controllers call for 5-pin, while many products use 3-pin connectors. This is your solution.

DMX 5-pin Male
to 3-pin Female Adapter

DMX 3-pin Male
to 5-pin Female Adapter

All cable is available in a range of lengths.

Foil/Data Terminator

Apollo Foil

A black aluminum foil that effectively blocks out unwanted light and reflections.

- High heat resistant.
- Non-reflective.
- Packaged in a durable corrugated box .
- Available in 12" x 50' roll or 24" x 25' roll.

Data Terminator

Used at the end of every DMX circuit.

3-pin

4-pin

5-pin

FOIL/DATA TERMINATOR

Tape

Apollo tape is known for long life with no sticky residue. With 50 oz/in adhesion for great grip, Apollo tape has a tensile strength of 44 lbs/in and is 12 mils thick for the toughest applications.

Gaffer Tape

An industry standard for temporary securing of cables. 2" wide, waterproof and wear-resistant. Available in 6-pack of individual color.

Spike Tape

1/2" wide tape used to mark floor for actors and scenery, safety areas, and to mark lengths of cables for quick reference.

Camera Tape

1" wide tape used to seal film canisters, mark stage locations, scenery sets, and mark lengths of cables.

■ Available in 3"
 * Available in 3" and 4"
 ★ Gaf Pak™ - 6 rolls

Gaf Pak™
6 Pack

AV Tape

2" wide lusterless tape used to protect and anchor wiring.

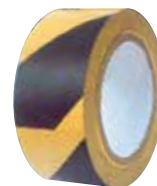

Scroller Tak 3

1" wide optically clear tape. Used for making gel strings.

Carpet Tape

2" wide tape double-sided tape to hold down carpet.

Safety Tape

2" wide tape used to mark stages and dangerous areas.

Glow Tape

1" wide glow-in-the-dark tape for marking dark areas.

Donuts

ThinLine™ Donuts

ThickLine™ Donuts

Donuts sharpen the projected images by blocking stray light.

ThinLine™

Donuts are unique to the market by the material used in their construction .009" black, non-reflective, coated high-temperature aluminum. ThinLine™ Donuts are much lighter than traditional steel donuts and very cost effective.

ThickLine™

Donuts are made of .032 inch thick aluminum alloy, powder-coat ferro black. Extremely durable. Ideal for rental house use.

DONUTS

Gel Frames

ThinLine™ Gel Frames

ThickLine™ Gel Frames

Apollo ThinLine™ and ThickLine™ Gel Frames conveniently hold a piece of gel in the color frame channel on the front of the fixture.

ThinLine™

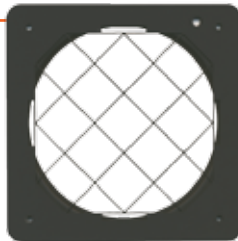

Gel Frames are much lighter than traditional steel gel frames and very cost effective.

ThickLine™

Gel Frames are made of 26 gauge cold rolled steel, powder-coat black and are cost effective yet durable.

GEL FRAMES

Safety Frames

A safety frame is a safety grid within a frame to protect glass. The safety frame fits into the mounting brackets of many lighting fixtures, such as ellipsoidals and par cans.

SAFETY FRAMES

Dichroic Filter Holders/ Dichroic Filter Clips

Dichroic Filter Holders

Securely attach up to 1/8" filters to MR16 lamps via two-piece threaded construction. Recommended for retail, architectural, and trade show applications when higher visual appeal is desired. MR16 holders are available in black or silver.

Dichroic Filter Clips

A cost-effective alternative for attaching a filter to an MR16 lamp. Lightweight, reusable, and easy to install, the MR16 Clip holds glass up to 1/8" thick. Ideal for track light applications, clips are available in black or silver.

DICHOIC FILTER HOLDERS/CLIPS

OUTLET

Did you know: You can save up to 75% on overstock, discontinued and demo inventory at the Apollo Design Outlet Store. Visit www.ApolloOutlet.com. New items are added regularly.

Tuff-Stuff C-Clamps

Get-A-Grip™

An aluminum c-clamp, is the strong and durable method of hanging your fixtures. The unique design of this clamp obtained a safe vertical working load (SVWL) of 600 pounds. This provides the flexibility of hanging all your lighting fixtures with one style of clamp. Safety and reliability all in one c-clamp.

Get-A-Grip™ Marine

The new aluminum c-clamp, is the strong and durable method of hanging your fixtures. The bolts and nuts are made from stainless steel to avoid corrosion from elements. It works well in marine environments, not suitable for direct splash conditions.

PipeDream™

Also known as the mini c-clamp, was designed for lighter hanging chores. This clamp is made from the same high strength extruded aluminium that gives Get-A-Grip™ incredible muscle, with a SVWL of 130 pounds.

All c-clamps are available in black and silver finishes.

Get-A-Grip™

PipeDream™

Get-A-Grip™ Marine

Perma Penny

Apollo has designed a unique accessory called the Perma Penny. A handy truss protector that slips right onto a fixture clamp to protect aluminum truss from repeated damage done by clamps. The Perma Penny remains on the fixture clamp until next installation.

Road Case Stencils

Custom Road Case Stencils

Ideal for stenciling logos and addresses on road cases. Made of rigid and cleanable plastic or steel material.

PrintScenic™ Plastic

PrintScenic™ Glass

Here is the information you need before you place an order with your authorized Apollo Design dealer.

1. What date do you need your gobo?
 - Add a few days to allow for unforeseen delays such as shipping.
2. What is the brand and model of the fixture your gobo will be placed in?
 - Different fixtures have different aperture sizes. For example: "A", "B", "M".
3. Is your pattern a custom pattern or standard pattern?
 - If custom, the artwork will need to be submitted 100% the size of pattern.
4. What median will your gobo be produced in? Your dealer can explain the advantages of each medium.
 - Metal
 - Black & White Glass
 - Full Color Glass
 - Printed Plastic
 - Printed Glass
5. How many gobos are needed?

CUSTOM GOBOS

Did you know?

iGobo®

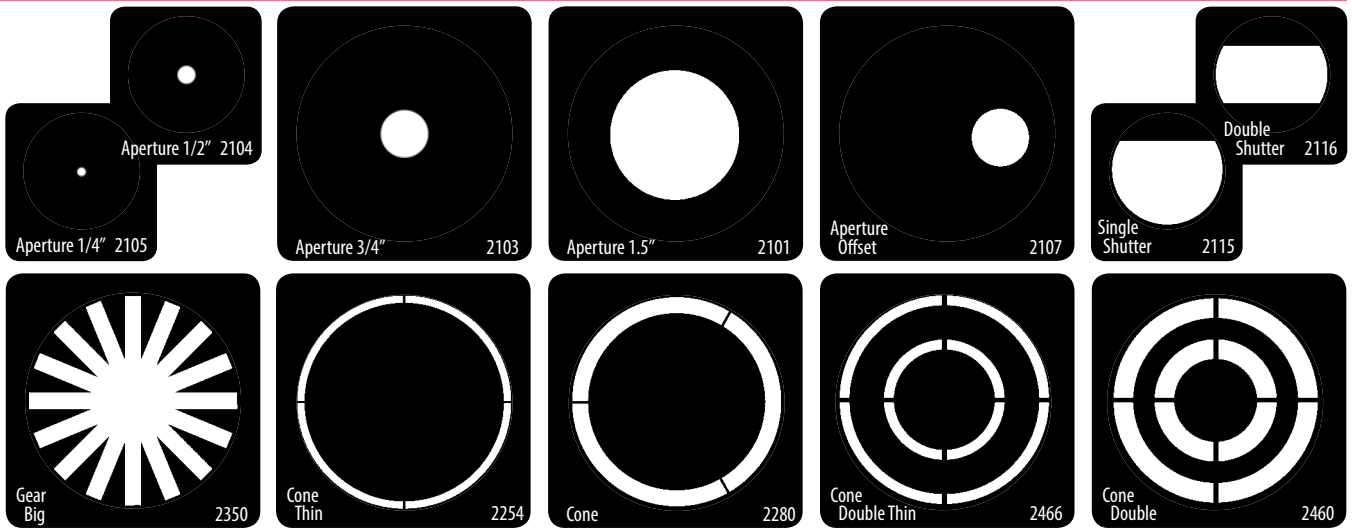

You can easily search our extensive library of over 2,000 gobos from your smartphone. Apollo Design's free iGobo® app allows you to:

- Search by name, number or keywords.
- Browse by category.
- Compare up to four designs.
- Rotate a design at variable speeds.
- Stack two designs and rotate the bottom design.

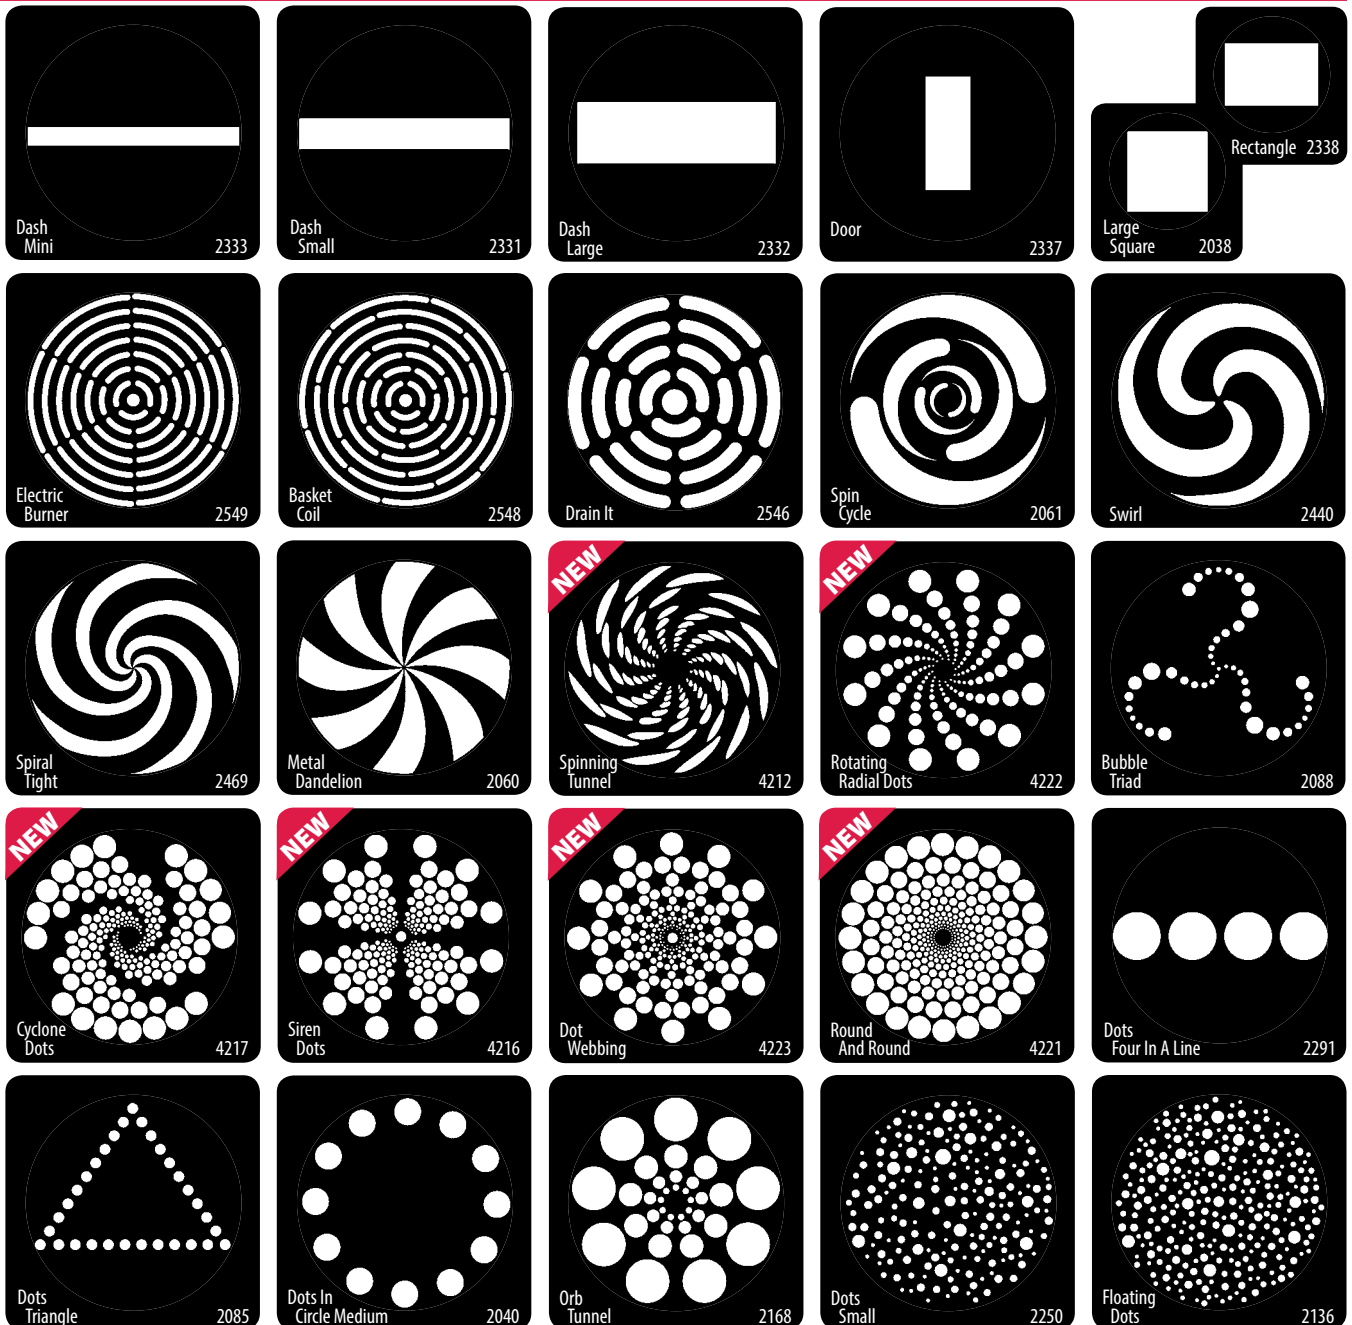

You can download the free iGobo® at the appropriate app store.
